QCHS Course Selection Guide 24-25

ELECTIVES Continued: Career and Technical Education (CTE) Courses

- Programs have an expectation of 2 years of participation; students can choose to participate for all 4 years culminating with an internship. **Program completion students are eligible to test for an industry certification.**
- Students will participate in local, state and national CTE student organizations along with potentially competing with other students across the state/nation.

<input type="checkbox"/> The AgriScience program is designed to prepare students for over 300 career pathways by providing them an overview of the fields of agricultural science, animal science, plant science, and soil science; animal husbandry, soil conservation; and agriculture operations such as farming, ranching, and agriculture business, and natural resources. This is a 3 year course. \$ Year: 1 2 3 Internship	<input type="checkbox"/> The Construction Technologies program includes instruction in construction equipment and safety; site preparation and layout; construction estimating; blueprint reading; building codes; framing; masonry; heating, ventilation, and air conditioning; electrical and mechanical systems; interior and exterior finishing; and plumbing. \$ Year: 1 2 Internship	<input type="checkbox"/> The Culinary Arts program prepares students to apply technical knowledge and skills required for food production and service occupations in commercial foodservice establishments. Students completing this program will possess the technical knowledge and skills required for planning, selecting, storing, purchasing, preparing and serving quality food products. \$ Year: 1 2 3 Internship
<input type="checkbox"/> Digital Photography program's coherent sequence of instruction will develop an in-depth understanding of the operation and maintenance of professional-grade digital cameras and specialized photographic equipment; natural, on-camera, off-camera, and modified lighting; image composition; and the use of computers and specialized software to record, enhance, and manipulate photos. \$ Year: 1 2 3 Internship	<input type="checkbox"/> The Early Childhood Education program includes instruction in child growth and development, child health, nutrition, safety, planning, and supervision of developmentally-appropriate practices and learning activities. Child guidance, family relationships, parenting, and applicable legal and administrative requirements are also addressed. * \$ Year: 1 2 3 Internship	<input type="checkbox"/> The Engineering instructional program offers a multidisciplinary approach to teaching and learning foundational concepts of engineering practice, providing students opportunities to explore the breadth of engineering career opportunities and experiences and solve engaging and challenging real-world problems. . \$ Year: 1 2 3 Internship
<input type="checkbox"/> The Film and TV Production instructional program prepares students to produce digital films and videos (including news broadcasts, commercials and public service announcements, feature films and documentaries, episodic series, music videos, educational videos, and others). \$ Year: 1 2 3 Internship	<input type="checkbox"/> The Graphic Design instructional program prepares students to use technical expertise, creativity, and esthetic principles to design and create visual concepts that meet specific commercial or promotional needs, as well as inspire, inform, and captivate consumers. \$ Year: 1 2 3 Internship	<input type="checkbox"/> The Marketing program includes instruction in market research, economics, marketing budgets, creative development and design, and marketing foundations and functions – with an emphasis on public relations, advertising, branding, promotion, product and service management, pricing, and distribution.* \$ Year: 1 2 3 Internship
<input type="checkbox"/> The Nursing Services program prepares students to perform routine nursing-related services to patients in hospitals or long-term care facilities under the training and supervision of a registered nurse or licensed practical nurse. (Grades 10-12) \$ Year: 1 2 3 Internship	<input type="checkbox"/> The Software and App Design program uses Project Lead The Way Computer Science Essentials to expose students to a diverse set of computational thinking concepts, fundamentals, and tools. Students will use visual, block-based programming and seamlessly transition to text-based programming.. \$ Year: 1 2 3 Internship	<input type="checkbox"/> The Sports Medicine and Rehabilitation program Introduces students to the roles of various disciplines within sports medicine and rehabilitation sciences as well as other allied health professions. Students will be introduced to the analysis of human movement based on anatomical and mechanical principles. \$ Year: 1 2 3 Internship
<input type="checkbox"/> The Stagecraft program prepares individuals to apply artistic, technical and dramatic principles and techniques to the communication of dramatic information, ideas, moods, and feelings through technical theater methods. \$ Year: 1 2 3 Internship
